## ABOUT US

From our operations in Estaquilla - Los Muermos, we specialize in collecting, processing, and commercializing aquaculture products, with a strong focus on exporting high-quality seaweed, particularly cochayuyo (*Durvillaea antarctica*). With a professional team and an advanced processing plant, we guarantee sustainably sourced, premium-quality products.

## OUR MISSION

To bring sustainable marine products to the global market that meet the highest standards of quality and freshness, strengthening our value chain throughout the Chilean aquaculture industry.

## PROCESSING AND QUALITY

We have a processing plant dedicated to the treatment of Chilean seaweed, equipped with state-of-the-art technology that guarantees the integrity and freshness of the product.

## SELECTION AND CUTTING PROCESS

Each batch is carefully selected and packaged for export, ensuring quality from collection to final destination.

We offer two types of cuts tailored to customer needs:

- Tube Cut: Ideal for industrial use and further processing.
- Slice Cut: Perfect for quick preparations and final products.

Our cochayuyo is processed under strict quality control, dehydrated to achieve a moisture level below 10%.

## COMPETITIVE ADVANTAGES

We control the entire production process to maintain high-quality standards.

Our team has extensive experience in the collection, processing, and export of marine algae, ensuring professional service and a top-quality product.

We offer customization in packaging and cuts.

Our infrastructure and production capacity enable us to guarantee a constant and reliable supply to our customers, adapting to their specific needs.

## KEY APPLICATIONS OF OUR PRODUCTS FOR GLOBAL INDUSTRIES

Thanks to its versatility, our cochayuyo is used in multiple applications, such as food, supplement formulation, and industrial products, making it a commercially valuable ingredient.

Cochayuyo contains essential minerals, antioxidants, and fiber, making it an attractive resource for high-quality industrial, food, and medicinal products.

## COMMITMENT TO THE ENVIRONMENT

We work hand in hand with local communities and follow responsible harvesting practices to preserve marine ecosystems. Our commitment to the environment is one of our greatest strengths.

## OUR MARKETS

Currently, we supply customers in China and are seeking new strategic partners in Asia, Europe, and the Americas who are interested in high-quality aquaculture products.

# Technical Data Sheet

## PRODUCT

COCHAYUYO

## SPECIES

Durviellaea Antarctica

## CLASS

Phaeophyceae

## ORDER

Durviellaeales

## FAMILY

Durvillaeaceae

## EXTRACTION PLACE

On the southern coast of Chile

## NUTRITION FACTS

Portion size: 100 g

Energy	180 - 200 kcal
Proteins	8 - 15 g
Total fat	1 - 3 g
Saturated Fats	<0.5 g
Total Carbohydrates	50 - 60 g
Dietary Fiber	30 - 40 g
Sugars	<1 g

## TYPE OF PREPARATION

Industrial use

## SIZE

At the customer's choice

## PRODUCTION CAPACITY

10.000 Kg per mounth

## PACKING

8 kg per bag
